## BRIEF INTRODUCTION

- Red Drop Diagnostics (RD) marks a new beginning for pathology services, offering a wide-range of advanced investigation
- RD is committed to provide healthcare services with precision following EQA and QC/QA schemes stringently. To ensure compliance with the quality standards, RD has created a scientific advisory board (SAB).
- SAB is team of experienced personage who evaluate the clinical staff on their competencies and further educate them about recent advancement in medical care and laboratory sciences.
- Our goal is to encourage the people to take simple yet essential steps towards a longer, healthier and happier living.

## Our Vision

Our vision, determination and futuristic approach is to enable the common man to access quality medical technology, diagnostic services at an affordable cost.

To Emerge as a leader in Pathology Industry and carve out a space for itself by establishing an efficient, effective and trusted pathology Service Network.

## Our Mission

Our mission to deliver Fast, accurate & reliable Pathology services to our customers, partners by leveraging technology driven workflows, specially curated, talented team & efficient laboratory processes.

To provide unparallel quality care through an exceptional patient experience that is delivered with prime research, education and state-of-the-art facilities.

## Technical Team

### Dr. Chitra Chauhan

Laboratory Director  
Consultant Pathologist  
MBBS, MD (Pathology), DNB  
More than 08 years experience

### Dr. Parwez Ali

Consultant Microbiology  
MBBS, DNB (Microbiologist)  
More than 7 years experience

### Dr. Anurudh Singh

Microbiologist,  
Ph.D (Microbiology)  
Hospital Infection Control  
More than 12 years experience

### Dr. Himanshu Tyagi

Consultant Biochemistry  
Ph.D (Medical Biochemistry)  
PCCB (Clinical Biochemistry)  
More than 14 years experience

### Dr. Ravi Kumar Chaudhary

Molecular Microbiologist,  
Ph.D (Molecular Microbiology)  
More than 8 years experience
